About Us

The Club Farm is more than a farmland project — it is a thoughtfully created sanctuary where people reconnect with nature, enjoy peaceful surroundings, and build long-term wealth through sustainable farming. Developed by Maxpine Group, the project is located near the sacred Ghats of Brijghat–Garh Mukteshwar, a place known for its purity, spiritual energy, and natural beauty. Here, the mornings are filled with calmness, and every breeze carries the essence of the holy River Ganga. At The Club Farm, we wanted to create a space where modern families can enjoy the traditional joy of farmland life — something pure, peaceful, and deeply fulfilling.

Thank You

The Club Farm, developed by Maxpine Group, is a premium farming project located near the sacred Ghats of Garh Mukteshwar Brijghat along the River Ganga in extended Delhi-NCR. It focuses on white sandalwood farming for spiritual living, environmental wellness, and wealth generation, with instant registry, mutation, and legal ownership. Plots support farming activities, backed by infrastructure like a 25-acre 5-star resort, 5-acre wellness centre, and 5-acre Sanskar School.
